80008004 PowerHouse® Dock Box  
80068011

Don't settle for less when you can get the best dock box on the market sold to World Class Marinas from New York to Singapore. Unlike boats, dock boxes should not be made of fiberglass. Fiberglass needs waxing or it will chalk, spider web crack and retain dirt. On impact, fiberglass will crack and deform. Trionic extra heavy-duty dock boxes are rotationally cast in a mold with impact-resistant polyethylene resin. The smooth exterior surface repels dirt without waxing. Key Benefits

- Extra heavy duty construction in our Dock Box
- Lockable reinforced cover
  
- Easy to assemble nylon hinges with stainless steel hardware
- Cover restrained with stainless steel cables
- Long term ultraviolet inhibitors protect against sun rays
- Available in white and white granite or custom colors
- Call for shipping charges. Part #DimensionsList Price\*\*8000Triangular Dock Box
